

Meet Kyle

Kyle is a handsome 13-year-old young man with blondish brown hair, green eyes, and a nice smile. He enjoys music, video games, remote control cars, playing outside, hiking, fishing, playing sports, eating out, and spending time with his two older brothers, who are placed in a separate foster home.

Kyle has been in foster care for almost five years. He is legally free for adoption and will be adopted separately from his brothers.

Kyle is an active young man. He is curious, inquisitive, and loves learning about and/or trying new things. He can be described as very mischievous, and as a result, he requires a great deal of supervision. Kyle craves adult attention, and he aims to please the adults in his life.

Kyle is in the seventh grade at school. Kyle makes friends easily, and he is popular with his peers. Academically, he performs well in school and makes at least average grades. However, as stated previously, Kyle is an active and mischievous young man, and he requires a lot of supervision and structure in school.

Kyle wants a family and wants to be adopted. He needs experienced parents who can provide structure, stability, and nurturing. It is preferred that he be the youngest child in the home with older siblings that can be positive role models. It is also preferred that he be placed in a family in close proximity to his brothers, as this relationship is very important to him, and he will want continued contact with them.

Termination has not occurred at this time but the permanency plan for Kyle is adoption. For further information regarding Kyle contact Amy Holtgreve-Newell at 314-754-2768 or 866-326-LFCS. You can also e-mail Amyh@lfcs.org.
