

# Jarod & Kim

*Dear Birth Parents,*

*We know that certain life events have led all of us to this point. Adoption is not something that any of us knew would bring us together. Yet we find ourselves reaching out to you to consider selecting us as the adoptive family for our child. It takes a strong person to be in your shoes and through this process we hope you find peace in your difficult decision. We, along with our daughter, want nothing more than another child to love and cherish. Your child will be welcomed into a loving family, including grandparents, aunts, uncles, and cousins, all of whom are excited about our plans to adopt. We truly believe that this is part of a larger plan and are excited to open this next chapter of our life. As our family grows, your loving decision will never be forgotten. You will always be in our thoughts and prayers.*

*Jarod and Kim*

# Fun Family Facts

## Views on Adoption

We both feel that everything happens for a reason and there is a child that is meant to be a part of our family. Our new addition will have every opportunity as Elsie and will be equally loved. We would love to meet and get to know you before the birth so we are able to share with our child all about their birthparents. We not only want to share letters and pictures with you, but would also love letters and pictures in return. We plan on being very open with ur child about their adoption at an early age. We will only speak of you in a positive light. They will always know that your unconditional love led them to us.

## Views on Parenting, Education & Discipline

We believe in raising children who are respectful and kind to others. We will always be supportive of our children and encourage them to reach their full potential. It's important to us that our children learn responsibility at an early age. In terms of discipline, we tend to explain why bad behavior is unacceptable rather than yelling. This method helps children to understand what they are doing is wrong, but also gives them acceptable alternatives. Overall, we want our children to be happy and know that they are loved unconditionally.

## Family Life

We love spending time together as a family. Elsie always enjoys our fun outings to the waterpark, parks, and the Zoo! We enjoy spending as much time as we can outdoors and we look forward to being able to share these fun experiences with another child.

## Child Care Plans

We both plan to take as much time off as possible to bond with our new addition. We carefully chose the child care center Elsie attends. We have been amazed how much she has learned and how well she interacts with her classmates. Our plan is for the baby to attend this same child development center so we will know that they baby will get the same amazing attention this his/her big sister gets!

## Our Home

We live in a 3 bedroom, 2 bathroom home is a very family friendly neighborhood. Our home has a 3 car garage filled with all of Elsie's outdoor toys. The neighborhood has it's own park, a small pond, and soon access to a swimming pool. It is a wonderful place to take a walk.
