

Meet Christopher

Ten year old Christopher enjoys cuddle time and being close to those he cares about. Christopher is a sweet boy with an easy-going and affectionate nature. He laughs and giggles easily. Christopher does have some special needs. With the assistance of his hearing aids he is learning small words and basic sign language, but is also able to express his needs in other ways. Christopher likes to listen to upbeat music and enjoys riding in the car. He loves school and is ready and waiting at the door to leave in the morning. He likes playing outside and is learning to play with toys and to dress himself. Christopher has a connection with his older brother and younger sister that will be important relationships to continue.
