

# Colby & Aubrey

Dear Birth Parent,

We are honored that you have chosen to read this book. First things first, we want you to know that we have prayed and prayed for our birth parents and their precious baby. We want you to know that we are so excited to start our journey as parents, and we feel incredibly blessed to be able to adopt. We don't even know you yet, but we already have something in common: our love for our future child.

We have been married for six years and have been talking about and preparing for this journey almost the entire time. We knew right from the beginning that we would not have biological children. We were both raised surrounded by a lot of family, and we cannot wait to start our own.

We want you to know that we look up to you for your decision, and that if you give us the honor of being parents, you will always be in our thoughts and prayers, every day.

Sincerely,  
Colby and Aubrey

# Adoption

We knew from the beginning of our marriage that we would not have biological children. Soon after that, we began talking about adoption. Aubrey has a brother that is adopted, so we are somewhat familiar with the process. We are SO excited and consider ourselves very blessed to have the opportunity to adopt!

# Parenting

We have always been around kids and cannot wait to be parents. We have an excellent support system on both sides of our family and they are anxiously awaiting a baby to love on with us!

# About Us

We have been happily married for six years. We are each other's best friend and love doing life together! We absolutely love being outdoors and being on our farm. We love doing things with our extended families, including going to the lake and having big get-togethers for the holidays. However, we also like just being at home and enjoying our house and land. God plays a big role in our lives and raising our child in church and around excellent role models will always be a priority.

Colby is funny, hard-working and honest. He is a plumber and enjoys working on old trucks and hunting, fishing, and going to the lake.

Aubrey is organized, driven, and loving. She works as a laboratory team lead. She enjoys country music, funny movies, and concerts. She loves animals and the outdoors, especially the lake.

# Childcare

After placement, Aubrey will be taking a couple months off work and Colby will be taking a couple weeks. Once Aubrey goes back to work, her mother and Colby's mother will be taking turns providing child care in their homes. Once our child is old enough, we plan on her attending public schools.

# Our Home

We live in a one story, brick, ranch style home on a small farm outside of a large city in Missouri. We have excellent neighbors and are far enough out of town to enjoy country living, yet close enough that it isn't hard to go into town to eat, see movies, shop, etc.

# Openness

We look forward to making a plan for openness that fits our child's and their birth parents' needs. If this is something that happens right off the bat, great, if it is something that evolves over time, that is awesome, too!
