

# Cheyana

Cheyana likes to express her creative side through her hair and make-up. She has a great imagination and is outspoken and articulate. Like any typical 17-year old, she prefers to spend time with her friends or on a cell phone or tablet. Other than the social aspects, school is not Cheyana's favorite place, although she worked hard during her junior year to maintain her grades. She will be a senior this fall. Cheyana is intelligent and has the ability to do well when she is focused. She is also into learning how to live a healthy life style by staying active and eating healthy. Cheyana is eager to have a family to provide stability in her life and help her transition into adulthood. Cheyana does have important family connections that she would like to continue.
