

# Hello!

We are Kyle, Rikki, and Harper  
and this is 3/4 of our family.

We cannot wait to find our missing piece in our crazy journey of life. I know the journey you're on has its own ups and downs. Unfortunately, no path ever seems straight in life. We want to be there for you and your baby. Give you peace on your journey and shine some light on your path. We commend you on your strength and courage to investigate this process.

Daisy

Harper

# Family is not the most important thing, It's everything.

Our all-time priority is  
our family.

Our children are always  
top priority and seeing  
their dreams come true.

Our goal as parents is  
not to raise our children  
to be us, but their own  
unique person and have  
their own character.

We love everything from  
playing Horsey Rides  
with Harper to seeing  
her interaction with her  
favorite characters,  
such as Minnie Mouse or  
Paw Patrol.

We live very close to  
both families and they  
are very involved in  
Harper's life and will be  
in our next child's too.

From vacations to  
holidays and weekend  
sleepovers they love  
spending time with  
their grandchildren.

# Views on Adoption

We have always planned for a family of 4 and have wanted to adopt. We want to grow our family in love, embrace their history, and build new memories together. We desire to help our adoptive child thrive, and become their own unique person. We are diving into uncharted waters, but our ultimate goal is to give our children love, understanding and our utmost dedication.

# Views on Openness

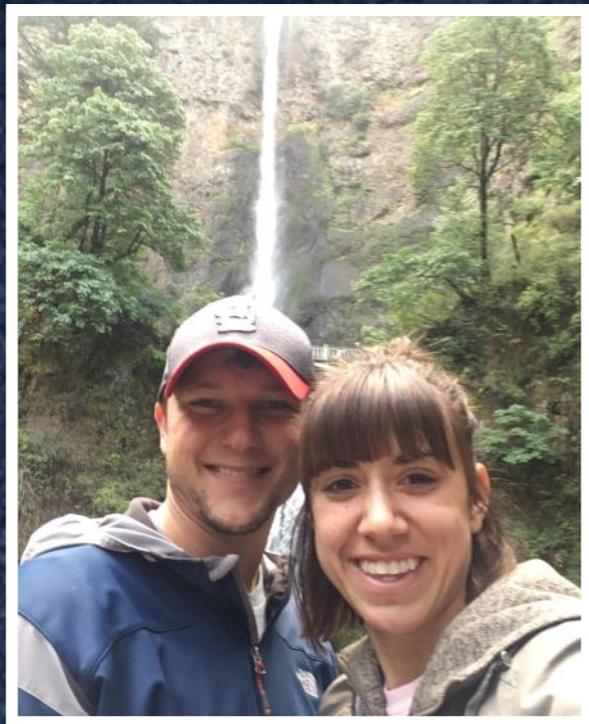

Our child's story will be told like all good stories, from the beginning. Your story is important to your baby and deserves to be part of their life because it is their life! They need to know who you are, what you look like, and how much you love them. Your desire to place your child into another family's arms is out of pure love for your child.

Every year on Harper's birthday we tell her the story of the day she was born. And our mission is to do the same for your baby. We want him/her to know where their eye color came from or the little dimple or habit they have. We believe that will give them a sense of being and help them feel whole.

We have seen how important a biological parent's role is in a child's life. We would love to meet you! We are new to this and would like to start slow with letters, emails and photos or photobooks. As we go along we are receptive to opening the gates more, as we get to know each other better.

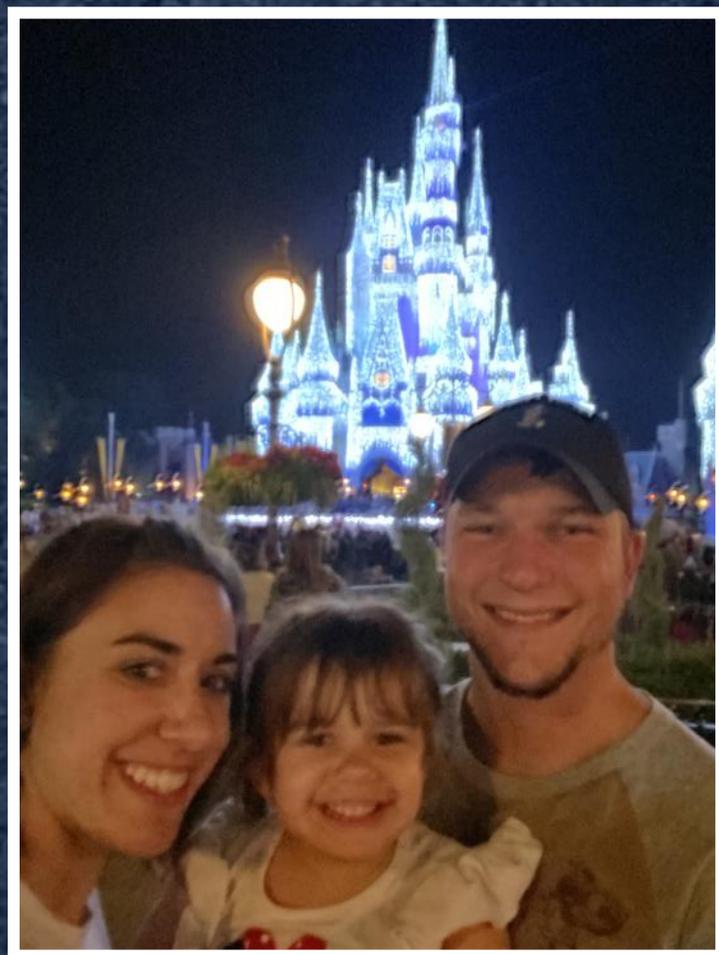

We enjoy travel and seeing new things.

We support each other, and we will be our children's number one fan.

## Views on Parenting and Discipline

As parents we believe in letting kids experience and learn for themselves. Our goal is to encourage our kids to continually learn and never restrict their imagination. We believe rules should always be consistent, and we want kids to understand why there are set rules. When we get to their level, we are able to talk with them and show them the right way.

# Our Home

If we were to be matched with you, it would be an incredible honor and blessing. One that will not be taken for granted but cherished. As a family we can provide your child with love, laughter, encouragement, adventure, and security.

We hope we can join you on your journey!

Love, Kyle, Rikki, and Harper
