

BRANDON *and*
CATHERINE

Dear Birth Parent,

Whether this is the first profile you've looked at or just the latest, we appreciate you thinking about allowing us to join you in this adoption.

We understand this is the biggest decision that you will ever make. Hopefully this profile gives you some insight into our family and allows you to see the love and happiness that we're so anxious to share with this child.

Know that if you choose our household that this child will be raised in a place full of laughter and joy. We will do our absolute best to ensure that they have a rich and full life.

Considering us as your child's adoptive parents is truly humbling and we thank you for taking the time to learn a little bit more about us.

Love, Brandon and Cat

About Us

We've been together as husband and wife for 7 years, and committed to each other for 14. Over that time we've moved out of state and back, seen each other through college graduations, the start of our professional careers, and are now in our second home together.

Cat is a Registered Nurse and spends her time assisting developmentally and physical challenged people as part of a home health organization.

Brandon is an IT professional who develops and administers network and computer systems for the local community.

Cat was born in the Bahamas and emigrated to the United States with her family as a child. She LOVES the water. By it, on it, or in it; she never passes up a chance for some beach time or a boat ride.

Her job as a registered nurse requires a certain amount of compassion and a nurturing spirit, but it's also just a part of her character. She is a fantastic home-maker, an avid gardener, a savior of oh-so-many turtles stranded in the road, and just an honest-to-goodness kind person.

Catherine

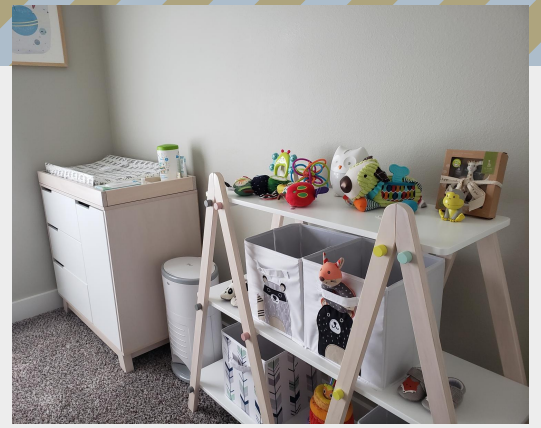

Brandon

Brandon was born and raised in the town where we live. He was adopted along with his twin brother as an infant and grew up with another older sibling who was also adopted. He's hopeful that his own experience with adoption will help in this journey we've decided to take with you.

He loves live music, art, science fiction, astronomy, food (both cooking AND eating) and the wonders of the natural world. He is definitely a gamer and is always ready to throw down in ping-pong, darts, poker, tabletop or video games. His passion for computers and technology led him into his career as an IT professional.

Our House

This is our second home together. We're just outside the city limits so we're separated from a lot of the hustle and bustle, but close enough for whatever we need.

The 5-bed, 3 1/2-bath floor plan provides plenty of space for a child, the dogs, and the occasional visit from family and friends. We have a big backyard with a garden that attracts a large variety of birds. If you're lucky and out early enough, you can even catch sight of the Blue Heron flying overhead and hanging out across-the-way along our dog-walking route.

The neighborhood has a lot of young professionals our age with their own growing families and plenty of opportunities to make friends.

Our favorite part has to be cooling off at the large pool area on hot summer days.

Our Pets

Domino

Pepper

Bella

Thank You!

We cannot express enough how much we appreciate your consideration for this adoption. We would love to be allowed to provide your child with a safe and secure home to grow in, and to help nurture them and guide them through life.

Thanks for the opportunity to show you a little bit of ourselves. We hope to be able to meet in person soon so that we can find out more about each other and then begin to figure out how we can best work together to give your child the best life possible.
